Tufts Health Plan Senior Care Options (HMO-SNP) Tufts Health Plan Senior Care Options CW (HMO-SNP) 2025 *List of Covered Drugs* (Drug List or Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs are covered by Tufts Health Plan Senior Care Options. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by Tufts Health Plan Senior Care Options. Key terms and their definitions appear in the last chapter of the *Evidence of Coverage*.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the *List of Covered Drugs* that starts in section C are the drugs covered by Tufts Health Plan Senior Care Options. The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide your services. We refer to these pharmacies as “network pharmacies.”

Other drugs, such as some over-the-counter (OTC) medications and certain vitamins, may be covered by MassHealth. Please visit the MassHealth website at <https://mhdل.pharmacy.services.conduent.com/MHDL> for more information.

- Tufts Health Plan Senior Care Options will cover all medically necessary drugs on the Drug List if:
 - your doctor or other prescriber says you need them to get better or stay healthy,
 - Tufts Health Plan Senior Care Options agrees that the drug is medically necessary for you, **and**
 - you fill the prescription at a Tufts Health Plan Senior Care Options network pharmacy.
- In some cases, you have to do something before you can get a drug. Refer to question B4 for more information.

You can also find an up-to-date list of drugs that we cover on our website at www.thpmp.org/sco-member or call Member Services at the number listed in the footer of this document.

B2. Does the Drug List ever change?

Yes, and Tufts Health Plan Senior Care Options must follow Medicare and MassHealth rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from Tufts Health Plan Senior Care Options before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check Tufts Health Plan Senior Care Options' up-to-date Drug List online at www.thpmp.org/sco-member. Updates to the Drug List are posted on the website monthly.
- You can also call Member Services at the number listed in the footer of this document to check the current Drug List.

If you have questions, please call Tufts Health Plan Senior Care Options at 1-855-670-5934 (TTY: 711), 7 days a week, 8 a.m. – 8 p.m. (Apr. 1 – Sept. 30, Mon. – Fri., 8 a.m. – 8 p.m.). The call is free. **For more information**, visit www.thpmp.org/sco-member. ix

This formulary was updated on 08/19/2024

B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **Substitutions of certain new versions of drugs.** We may immediately remove the drugs from the Drug List if we replace them with certain new versions of that drug, but your cost for the new drug will remain \$0 with the same or fewer restrictions. When we add a new version of a drug, we may also decide to keep the brand name drug or original biological product on the list but change its coverage rules or limits.
 - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
 - We can make these changes only if the drug we are adding:
 - is a new generic version of a brand name drug, or
 - is a certain new biosimilar version of original biological products on the Drug List (for example, adding an interchangeable biosimilar that can be substituted for an original biological product without a new prescription).
 - Some of these drug types may be new to you. For more information, refer to Section B14.
 - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to questions B10-B12 for more information on exceptions.
- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or effective, or the drug's manufacturer takes a drug off the market, we may immediately take it off the Drug List. If you are taking the drug, we will send you a notice. You can then talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We remove a brand name drug from the Drug List when adding a generic drug that is not new to the market, **or**
 - we remove an original biological product when adding a biosimilar, **or**
 - we change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- tell you at least 30 days before we make the change to the Drug List **or**
- let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- if there is a similar drug on the Drug List you can take instead **or**
- whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10-B12.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you or your doctor or other prescriber must get authorization from Tufts Health Plan Senior Care Options before you fill your prescription. Prior authorization is different from a referral. Tufts Health Plan Senior Care Options may not cover the drug if you don't get prior authorization.
- **Quantity limits:** Sometimes Tufts Health Plan Senior Care Options limits the amount of a drug you can get.
- **Step therapy:** Sometimes Tufts Health Plan Senior Care Options requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your prescriber thinks the first drug doesn't work for you, then we will cover the second.
- **Non-extended day supply drug:** For certain drugs, Tufts Health Plan Senior Care Options limits quantities up to a 30-day supply per fill.

You can find out if your drug has any additional requirements or limits by looking in the tables beginning in section C. You can also get more information by visiting our website at www.thpmp.org/sco-member. We have posted online a document that explains our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Refer to questions B10-B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table in the List of Drugs by Drug Type has a column labeled "Necessary actions, restrictions, or limits on use."

B6. What happens if Tufts Health Plan Senior Care Options changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

If you have questions, please call Tufts Health Plan Senior Care Options at 1-855-670-5934 (TTY: 711), 7 days a week, 8 a.m. – 8 p.m. (Apr. 1 – Sept. 30, Mon. – Fri., 8 a.m. – 8 p.m.). The call is free. **For more information**, visit www.thpmp.org/sco-member. xi

This formulary was updated on 08/19/2024

B7. How can I find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically, **or**
- You can search by drug type.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it in section D. The Index of Covered Drugs is an alphabetical list of all of the drugs included in the Drug List. Brand name drugs and generic drugs are listed in the index.

To search **by drug type**, find the section labeled “List of Drugs by Drug Type” in section C. The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

B8. What if the drug I want to take is not on the Drug List?

If you don't find your drug on the Drug List, call Member Services at the number listed in the footer of this document and ask about it. If you learn that Tufts Health Plan Senior Care Options will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Refer to questions B10-B12 for more information about exceptions.

B9. What if I am a new Tufts Health Plan Senior Care Options member and can't find my drug on the Drug List or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of Tufts Health Plan Senior Care Options. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- our plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by Tufts Health Plan Senior Care Options, **or**
- you are taking a drug that is part of a step therapy restriction.

If you are taking a drug that Tufts Health Plan Senior Care Options does not consider to be a Part D drug, you have the right to get a one-time, 72-hour supply of the drug.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new Tufts Health Plan Senior Care Options member.
- This is in addition to the temporary supply during the first 90 days you are a member of Tufts Health Plan Senior Care Options.

As a current member, if you are admitted to or discharged from a long-term facility and experience an unplanned drug change, you can request that we approve a one-time, temporary fill of the non-covered medication to allow you time to discuss a transition plan with your physician. Your physician can also request an exception to coverage for the non-covered drug based on review for medical necessity following the standard exception process outlined previously. The temporary "first fill" will generally be up to a 31-day supply but may be extended to allow you and your physician time to manage the complexities of multiple medications or when special circumstances warrant. You can request a temporary prescription fill by calling the Tufts Health Plan Senior Care Options Member Services department.

If you have questions, please call Tufts Health Plan Senior Care Options at 1-855-670-5934 (TTY: 711), 7 days a week, 8 a.m. – 8 p.m. (Apr. 1 – Sept. 30, Mon. – Fri., 8 a.m. – 8 p.m.). The call is free. **For more information**, visit www.thpmp.org/sco-member. xiii

B10. Can I ask for an exception to cover my drug?

Yes. You can ask Tufts Health Plan Senior Care Options to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, Tufts Health Plan Senior Care Options may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more at no additional cost.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

B11. How can I ask for an exception?

To ask for an exception, call Member Services. A Member Services representative will work with you and your provider to help you ask for an exception. You can also read Chapter 8, section 7 of the *Evidence of Coverage* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours. For a faster decision, include this medical information from your doctor or other prescriber when you ask for the exception.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and generally work just as well. They usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). There are generic drugs available for many brand name drugs. Generic drugs usually can be substituted for brand name drugs at the pharmacy without a new prescription—depending on state laws.

Tufts Health Plan Senior Care Options covers both brand name drugs and generic drugs.

B14. What are original biological products and how are they related to biosimilars?

When we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have forms that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For more information on drug types, refer to Chapter 5 of the *Evidence of Coverage*.

B15. What are OTC drugs?

OTC stands for “over-the-counter”. Tufts Health Plan Senior Care Options covers some OTC drugs when they are written as prescriptions by your provider.

You can read the MassHealth Standard (Medicaid) Over-the-Counter Drug List to find out what OTC drugs are covered.

In addition to the MassHealth Standard (Medicaid) OTC Drug List, Tufts Health Plan Senior Care Options provides coverage for the following drugs under your Medicare benefit:

- Benzonatate
- Chondroitin/MSM
- Glucosamine/Chondroitin/MSM
- Glucosamine/MSM
- Lidocaine 4% Topical Patch
- Methylsulfonylmethane (MSM)
- Mucinex 600 mg
- Omega 3/Fish Oil
- Robitussin Cough + Chest Congestion DM (liquid)

B16. Does Tufts Health Plan Senior Care Options cover non-drug OTC products?

Tufts Health Plan Senior Care Options covers some non-drug OTC products when they are written as prescriptions by your provider.

Examples of non-drug OTC products include alcohol swabs and gauze.

You can read the Tufts Health Plan Senior Care Options Drug List to find out what non-drug OTC products are covered.

B17. Does Tufts Health Plan Senior Care Options cover long-term supplies of prescriptions?

- **Mail-Order Programs.** We offer a mail-order program that allows you to get up to a 90-day supply of your prescription drugs sent directly to your home. You have a \$0 copay.
- **90-Day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 90-day supply of covered prescription drugs. You have a \$0 copay.

If you have questions, please call Tufts Health Plan Senior Care Options at 1-855-670-5934 (TTY: 711), 7 days a week, 8 a.m. – 8 p.m. (Apr. 1 – Sept. 30, Mon. – Fri., 8 a.m. – 8 p.m.). The call is free. **For more information**, visit www.thpmp.org/sco-member. xv

B18. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

B19. What is my copay?

Tufts Health Plan Senior Care Options members have no copays for prescription and OTC drugs and non-drug products as long as the member follows the plan's rules. Refer to questions B14 and B15 for more information about OTC drugs and non-drug products.

Tiers are groups of drugs on our Drug List. Your plan has 1 tier. All covered drugs are in this tier.

All drugs on our Drug List have no copay.

- Tier 1 Generic drugs have a \$0 copay.
- Tier 1 Brand name drugs have a \$0 copay.
- OTCs have a \$0 copay.

If you have questions, call Member Services at the number listed in the footer of this document.

C. Overview of the *List of Covered Drugs*

The *List of Covered Drugs* gives you information about the drugs covered by Tufts Health Plan Senior Care Options. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins in section D. The index alphabetically lists all drugs covered by Tufts Health Plan Senior Care Options.

C1. List of drugs by Drug Type

The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on use” column:

PA BvD: Medicare Part B or D.

These drugs require prior authorization to determine appropriate coverage under Medicare Part B or Part D.

QL: Quantity Limit Applies.

Because of potential safety and utilization concerns, Tufts Health Plan Senior Care Options has placed dispensing limitations on a small number of prescription drugs. This means that the pharmacy will only dispense a certain quantity of a drug within a given time period. These quantities are based on recognized standards of care, such as U.S. Food and Drug Administration recommendations for use.

HI: Home Infusion Drug.

This prescription drug is covered under our medical benefit.

PA: Prior Authorization Required.

The Prior Authorization process encourages rational prescribing of drug products with significant safety and/or financial concerns. A provider can submit a request for coverage based on a member’s medical need for a particular drug.

PA NSO: Prior Authorization for New Starts Only

The Prior Authorization restriction only applies if you are a new member or have not taken this drug before.

This section is continued on the next page

If you have questions, please call Tufts Health Plan Senior Care Options at 1-855-670-5934 (TTY: 711), 7 days a week, 8 a.m. – 8 p.m. (Apr. 1 – Sept. 30, Mon. – Fri., 8 a.m. – 8 p.m.). The call is free. **For more information**, visit www.thpmp.org/sco-member. xvii

ST: Step Therapy Prior Authorization Applies.

Step Therapy is an automated form of Prior Authorization, which uses claims history for approval of a drug at the point of sale. Step Therapy programs help encourage the clinically proven use of first-line therapies and are designed to ensure the utilization of the most therapeutically appropriate and cost-effective agents first, before other treatments may be covered.

Members who are currently on drugs that meet the initial Step Therapy criteria will automatically be able to fill their prescriptions for a stepped medication. If the member does not meet the initial Step Therapy criteria, the prescription will deny at the point of sale with a message indicating that Prior Authorization (PA) is required. Physicians may submit Prior Authorization requests to Tufts Health Plan Senior Care Options for members who do not meet the Step Therapy criteria at the point of sale under the Medical Review process.

ST NSO: Step Therapy Prior Authorization Applies to New Starts Only.

The Step Therapy Prior Authorization restriction only applies if you are a new member or have not taken this drug before.

NEDS: Non-extended Day Supply Drug.

In an effort to contain drug costs, certain high-cost drugs will be limited up to a 30-day supply per fill.

SP: Available Through a Designated Special Pharmacy Provider.

You have the option to obtain this drug through a designated Specialty Pharmacy provider. These pharmacies specialize in supplying a select number of medications directly to our members. They also provide free delivery to your home, educational support 24/7 by phone, support of nurses and pharmacists, and will work closely with your doctor. Medications include, but are not limited to, drugs used in the treatment of multiple sclerosis, hepatitis C, rheumatoid arthritis, and cancers treated with oral medications.

C2. Additional coverage

Diabetic Testing Supplies

Diabetic testing supplies including blood glucose monitors, blood glucose test strips, lancet devices, lancets, glucose control solutions, and continuous glucose monitoring systems (CGMs) are covered under the plan's medical benefit at participating retail or mail-order pharmacies. Our preferred coverage is as follows:

- OneTouch Test Strips
- OneTouch Meters (Quantity Limit: 1 meter per 180 days)
- FreeStyle Libre and Dexcom continuous glucose monitoring systems (Requires prior authorization)

Part B Vaccines

Certain vaccines are covered under the plan's medical benefit and can be obtained at participating retail pharmacies. Vaccines covered under Part B include:

- COVID-19 vaccines
- Flu vaccines
- Pneumonia vaccines (e.g., Pneumovax 23 & Prevnar 13)

Part B Oral Anti-Cancer Drugs

Certain oral anti-cancer drugs are covered under the plan's medical benefit at participating retail or mail-order pharmacies. Oral Anti-Cancer Drugs covered under Part B include:

- Alkeran Tablet
- Capecitabine Tablet
- Etoposide Capsule
- Hycamtin Capsule
- Melphalan Tablet
- Myleran Tablet
- Temozolomide Capsule

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (for example, *omeprazole*), brand name drugs are capitalized (for example, ENTRESTO). The information in the "Necessary actions, restrictions, or limits on use" column tells you if Tufts Health Plan Senior Care Options has any rules for covering your drug.

If you have questions, please call Tufts Health Plan Senior Care Options at 1-855-670-5934 (TTY: 711), 7 days a week, 8 a.m. – 8 p.m. (Apr. 1 – Sept. 30, Mon. – Fri., 8 a.m. – 8 p.m.). The call is free. **For more information**, visit www.thpmp.org/sco-member. xix
